

Aro-lite Curve Trailer™

Arrowboard Series

ABOUT THE CURVE

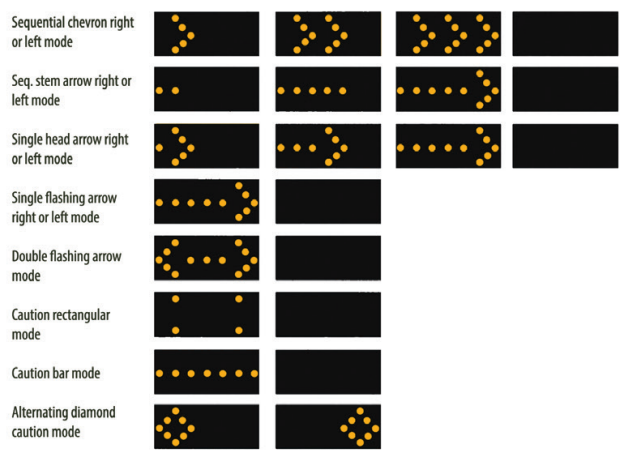

The Aro-lite Curve features a unique curve design that allows for added access to the deck area when utilizing the optional cone holders. Curb mounted control and battery boxes keep the operator away from traffic. In addition, our manufactured sliding jacks have a limited number of holes to reduce bending.

Add our optional wireless control and the Curve can be controlled from the safety of your vehicle.

Batteries and Solar Collectors

Batteries	(1) 12v sealed AGM, for other options: Call factory
Battery enclosure	Lockable, ventilated, acid resistant
Solar collector	Crystalline silicon
Solar collector frame	Formed steel, powder coated black self erecting
